Disregard the link I sent below. This is the correct one regarding FL Statute 119.07 regarding special service fees. Please see rest of email below and advise. Thanks.

Hi Angela:

Below is a response back from PHJA regarding the estimate given to them for their records request. The estimate sent to them is attached.

I can reply back that FL Statutes state: If the nature or volume of public records requested to be inspected or copied pursuant to this subsection is such as to require extensive use of

information technology resources or extensive clerical or supervisory assistance by personnel of the agency involved, or both, the agency may charge, in addition to the actual cost of duplication, a special service charge, which shall be reasonable and shall be based on the cost incurred for such extensive use of information technology resources or the labor cost of the personnel providing the service that is actually incurred by the agency or attributable to the agency for the clerical and supervisory assistance required, or both. 119.07 General exemptions from inspection or copying of public records

I will wait to hear back from you prior to replying. Thanks.

PHJA objects to the fee demands made by your agency in response to PHJA's public records request. This is a very simple public records request, which should only take a few minutes to fulfill. As you know, the requested records are subject to disclosure and readily available. Please reconsider your position and provide the requested records without further delays, demands or conditions.
